<p>Beginning at 3 years old, this class will introduce students to ballet principles in a creative environment. Children will playfully engage with new dance skills and movement concepts each week using stories, music, circle dances and special props, such as scarves and ribbon wands. The fun and positive instructor encourages dancers to move in ways shown by research to enhance brain development while progressively learning ballet skills. Social skills and self-esteem are also developed as children make new friends and enjoy their peers through partner and group dancing.</p>													
<p>Pre-Ballet/Tap</p> <p>Dancers age 4 and up will experience both ballet and tap in this introductory class. Each lesson will include creative activities in both genres and dancers will explore movement concepts such as speed, rhythm and energy. The instructor will teach steps in combination to create fun, light-hearted choreography in ballet and tap, and students will create their own movement through stories and games. Social skills and self-esteem are also developed as dancers enjoy partner work and group collaboratin. Dancers will also demonstrate responsibility for their dance shoes.</p>													
WATCHING WEEK													
<p>Watching Week is when students get the opportunity to spend time in the spotlight!</p> <p>Parents, family and friends are invited into the studio to watch all of class. Not only will you see how much your dancer has developed his/her physical skills in our specifically- designed preschool curriculum, you will also see your child's social and emotional growth as a student as well.</p> <p>Please mark your calendar for this special day!</p>
